HTML Basics

FOLDER STRUCTURE

```
COE1_HW1/ [*]
    ├── task [**]
    ├── homework/ [*]
          ├── index.html [*]
          ├── style.css [*]
          └── logo.png [*]
```

[*] - required
[**] - restricted (no need to submit)

TASK

In this homework you should create the same page as shown in the picture - `task/template.png` by using **HTML tags** and **attributes** <u>only</u>. All relevant text (which is used in the template) can be found in the file `task/content.txt`. Please note, that navigation menu should be working.

Write your code in "TODO" section inside `index.html` file.

RESTRICTIONS

- Using CSS is forbidden

BEFORE SUBMIT

- Code should be clean, readable, and tested
- Fix all issues which was found by w3org Markup Validation Service (https://validator.w3.org/)

SUBMIT

- The folder should be uploaded to gitlab repository **COE-1** into **main** branch
